

Iron Guard Plus

Iron Guard Plus is a turfgrass-enhancing bio-stimulant that contains iron and amino acids, formulated to provide a boost in colour and turf strength. Iron Guard Plus will maximise turfgrass colour retention and promote lateral growth, making it ideal for improved winter dormancy transition.

You can apply Iron Guard Plus monthly when active growth is present or when nutrient deficiency symptoms are visible to maintain even growth and colour for your lawn.

Sizes

2.5L Bottle

Approximate area of coverage

The 2.5L concentrate will cover up to 1,250m²

Application

To apply to your lawn, mix 200 to 500mls of Iron Guard Plus with 7-10 litres of water for 100m² of coverage. The higher the rate used, the darker the colour will be.

Precautions

If you are looking to use it for the first time or if you want to use it regularly as part of a lawn care program, it's best to apply at a lower rate.

Make sure you apply Iron Guard Plus during the cool hours of the day, so early morning or evening.

Product Details

- Colour enhancement
- Increased lateral growth
- Improved grass density
- Quicker root growth
- Improves dormancy transition
