

Shake  
bottle well

# ColourGuard<sup>TM</sup> PLUS

## Liquid Fertiliser + Natural Grass Pigment

### Easy to Apply - Non Toxic - Lasts up to 3 Months

#### DIRECTIONS

1. Shake ColourGuard PLUS bottle well
2. Measure and calculate the area (m<sup>2</sup>) you wish to ColourGuard PLUS
3. Fill your tank with 85% of the water volume needed for your application
4. Apply ColourGuard PLUS in an even sweeping motion across your lawn whilst moving away from the applied area
5. Once spraying is complete, flush your tank and spray nozzles with clean water
6. Allow adequate time for treated area to dry before allowing any traffic on the area

#### PRECAUTIONS

Do not apply during windy, raining, hailing or snowing conditions. Avoid applying to footpaths, driveways and other hard surfaces. Do not re-use container. Dispose of ColourGuard PLUS container in accordance with local, state and federal regulations. There are no warranties which extend beyond the description of this label hereof.

#### CLEANING

If you accidentally spray the footpath, driveway and/or other hard surfaces, immediately hose the ColourGuard PLUS with clean water towards the lawn. If a significant amount of ColourGuard PLUS concentrate is spilt on a hard surface, immediately use a dry cloth or paper towel to absorb the majority of spilt liquid. Use a general purpose window or floor cleaner to remove any stubborn stains.

#### SAFETY

Keep out of reach of children. If ingested or eye/skin contact occur, dilute with water and consult a doctor. Lawn Solutions Australia is not responsible for any misuse of this product.
