

ColourGuard Plus

ColourGuard PLUS is a liquid fertiliser and a natural grass pigment that instantly restores the colour of your lawn.

Apply this 100% natural grass colourant to keep your lawn looking fantastic year-round. Works on all lawns, in all climates. Plus, ColourGuard reduces the amount of fertiliser and water your lawn requires. Just one application can give your lawn up to three months of great colour.

ColourGuard delivers micron-sized organic pigment solids into the tiny pores of leaf tissues via water spray. Once it's dried, it's locked in.

Sizes

100ml Concentrate

2L Hose-on

2.5L Concentrate

10L Concentrate

Approximate area of coverage

100ml Concentrate up to 200m²

2L Hose-on up to 150m²

2.5L up to 6,250m²/0.625ha

10L up to 25,000m²/2.5ha

Application for Hose-on

SHAKE BOTTLE WELL!

1. Attach your hose to the 2 Litre Ready To Use bottle.
2. Keep bottle upright during application. Spray evenly across your lawn, working methodically from one side to another.
3. When spraying near hard surfaces like paths and driveways, stand on the surface and spray the ColourGuard PLUS away from the surface onto your lawn. If you do accidentally spray on surfaces, simply wash the colourant off immediately with hosed water.
4. Leave your lawn to dry for at least 2 hours afterwards (if in full sunlight), or longer if it is shady. Easy!
5. Water your lawn 2 to 3 days after application to wash off any excess.

Product Details

- The amount of RTU's (hose-on bottles) needed to use through a sprayer will depend on the size of the customers area of coverage and sprayer size.
- Does not need to be watered in.
