LAWN SOLUTIONS AUSTRALIA

Lawn Solutions Australia is a network of family owned Australian turf farms who grow and deliver a wide variety of premium turf varieties. Lawn Solutions Australia producers specialise in all aspects of turf projects, from small backyards, right through to sports fields, golf courses and public open space.

Our producers grow independently certified turf varieties which are suited to all climates and all applications Australia wide, providing the perfect solution to your project. Each business belongs to an independent accreditation scheme, with all aspects of turf production, logistics and Work Health & Safety requirements above industry standards.

With years of experience in producing high quality surfaces around Australia, Lawn Solutions Australia turf varieties are perfect to include in your next specification.

AUSGAP

All TifTuf is certified by AusGAP to maintain purity and integrity. There are no other new or existing hybrid couch grass varieties protected with this certification. With the superior traits of these new varieties being paramount, maintaining genetic purity is of the utmost importance. When you choose TifTuf, you can be assured you are receiving the genetically pure turf variety that possesses the superior traits that resulted in its selection above all others.

AusGAP is Australia's premier national Turf Certification Scheme. AusGAP ensures certified members have all necessary documentation up to date and adhere to all relevant government rules and regulations. Further to this, AusGAP independently certifies every square metre of production grass from Lawn Solutions Australia members Australia wide. This ensures premium quality turfgrasses that are true to type.

AILA

The Australian Institute of Landscape Architects (AILA) champions quality design for public open spaces, stronger communities and greater environmental stewardship.

Lawn Solutions Australia is a proud supporting partner of the AILA and has been since 2015.

Lawn Solutions Australia is committed to assisting and supporting AILA and its members to design and create a better Australia.

NATSPEC

NATSPEC is a national not-for-profit organisation owned by government and industry and is committed to improving the construction quality and productivity of the built environment. NATSPEC makes writing specifications an easier process and ensures only top-quality products are going into the build.

Lawn Solutions Australia turf varieties are the only trusted turf varieties to have specification guidelines included in a NATSPEC branded work section.
